

Investment Strategy

We launched Frontenac Mortgage Investment Corporation (MIC) because we have a deep appreciation for the tangibility of real estate and identified an opportunity to offer investors a fixed-income solution providing a reasonable return by tapping into the value of real estate.

Frontenac MIC focuses on investing in Ontario residential first mortgages outside of major urban areas. Our investment strategy is shaped by our commitment to helping investors achieve their objectives with competency, consistency, and care.

Key Features

- **A well-established market.** Our expertise in Ontario residential real estate allows our team to diligently manage risk while pursuing steady, long-term growth.
- **A conservative approach.** We avoid leverage and focus on first mortgages, which results in less volatility and greater risk mitigation.
- **A dependable investment.** We prioritize capital preservation and a consistent return by ensuring robust mortgage underwriting processes and reasonable loan-to-value ratios.

About Frontenac MIC

Frontenac MIC aims to provide capital preservation and consistent returns, powered by a conservative investment strategy. Since 1986, Frontenac MIC has generated positive returns for investors – initially as a private MIC and since 2005 as a public MIC.

Frontenac MIC is professionally managed and administered by two experienced firms with solid track records: W.A. Robinson Asset Management Ltd. (fund and portfolio manager) and Pillar Financial Services Inc. (mortgage broker and administrator).

Frontenac MIC is offered by prospectus, which provides advisors and investors with:

- **Ease of use.** Straightforward investment via FundSERV (WAR 110/111).
- **Peace of mind.** Transparency and risk mitigation with regulatory oversight by OSC.

Frontenac MIC can complement a portfolio with a fixed-income investment vehicle that taps into Ontario's residential first-mortgage market.
